Art Colours: Glossary of Terms

It worth mentioning that the very different work function from UHV and normal high vacuum evaporation is due to the existence of oxygen in the evaporation case. Different color systems will vary slightly.

Adding Colors and Textures with Materials

The smaller the image, the more noticeable these effects are.

The Basic Properties of Color

As late as the 1920s, hand coloring processes were used for individual shots in 1924 and 1925 both utilizing the ; and rarely, an entire feature-length movie such as 1925 and 1926.

How to Color in a Coloring Book (with Pictures)

The color design was based on color photographs taken at the same time as the special was shot.

Colour films; the technique of working with colour materials (Book, 1969) [vivchar.tom.ru]

This method takes large images by compressing a normal size one within the standard 35 mm frame. Some actors also complained to suffer from permanent eye damage, according to Richard. This technique worked initially, but the subsequent design of a new eliminated the demanding servicing requirements that come with having a vacuum pump.
