Most Downloaded Journal of Pharmaceutical Sciences Articles

The Emergence of Nanotechnology Advances in the field of nanotechnology have begun to impact plant biotechnology. Further, problems often encountered in the synthetic substitution of natural compounds are the lack of specificity and efficacy compared to natural compounds.

International Research Journal of Pharmaceutical Sciences

Certificate UCLA 2000 PhD Nihon University 1995 Visiting Professor UCLA 1996 Senior Researcher Bolton Brush Growth Center 1998-present Adjunct Professor Case Western Reserve University 2008- present Board member Joint Cephalometrics Expert Group Abstract This presentation consists of four parts. I Theory of thermodynamic rules. Sophisticated treatment tools: TADS for enhanced anchorage; algorithm generated removable aligners, digitally generated lingual appliances, precise, robotically generated arch wires, minimally invasive anterior implants and surgically facilitated orthodontic treatment SFOT.
