## Tuesday Poem: Moya Cannon

Lyrics like 'just call on me, brother' and the repeated 'call me' in the coda express a friend reaching out to help another, and we're extremely proud of how our arrangement amplifies this unity with a slightly more uptempo feel. At the heart of this collection is migration, the rhythm that draws together the natural and the human worlds.

### Carcanet Press

The artists are concerned with what happens to a story when it is removed from its place of origin, when those who tell and retell migrate, and all terms of reference and context are absent.

### Carrying the Songs (review), New Hibernia Review

Carrying the Songs — Sweden Detroit, Stockholm 2016 in collaboration with Ewert Ekros is a project which has its genesis in Norn, a small, isolated community in Dalarna. Show Yourself from Frozen 2 When teaching, we love to bring some musical theatre into the mix, as it is all about telling stories - so what better way to be introduced into the world of musicals than with a new musical movie. You can help give hope to these helpless dogs and cats by volunteering just a portion of your time.

I've had this book for a while from a class. The poem suggests that music, like hunger, is a biological need, and it can be found everywhere if one is engaged with the natural world.

We chose this 1981 Number One hit as it exudes positivity and exuberance, both of which I'm sure we could all do with more of right now. She is insightful, haunting, true.

Musically, this is more complex than it initially sounds which has allowed us to really play around with the SATB harmonies and the standout lyric 'look to the future now' furthermore feels very fitting as we work to maintain positivity and hope for what's to come. Thematically continuous with her first two collections, many of the new poems are about language, about words and how they are passed on; Cannon's own deft wordplay illustrates how the process works.
