Solar photovoltaic interventions have reduced rural poverty in China

Under such scenarios, a PV poverty alleviation policy may reduce poverty levels, possibly, with a nonlinear positive effect emerging cumulatively over time as increased disposable incomes lead to reinvestment in rural communities and compounded growth. After a consensus among the participants on the language, the principal investigator and field workers facilitated the discussions. They also focused on school knowledge and monthly wages for those in the sectors of Nouna town to designate the wealthy.

What is poverty?

In order to improve community engagement in DOTS and encouraging community based care, DOT providers were paid an honorarium at the end of the treatment that served as an incentive as well as a motivating factor to continue as DOT providers. More research about poverty accumulates each year, but public policy often is shaped on the basis of myths about the poor and misconceptions about what the public wants to do for them. But from things I've read in the newspaper and seen on TV, it really seems that Reagan cares more for the rich and big business than for the little man.
