The Complete Shorter Fiction of Virginia Woolf: Second Edition: Woolf, Virginia: 9780156212502: vivchar.tom.ru: Books

It became gradually clear - to JG and to the reader - that he wasn't really able to do the hard-sf thing extrapolation with a lot of wires and diagrams, but instead, he was developing, slo JG Ballard's stuff divides fairly neatly into three phases: 1 1956-64 - At first he was writing actual science fiction, and he was really cranking it out.

Complete Shorter Fiction by Oscar Wilde

But many of his other stories are cutesy fairy tales, apparently written for children, and they just don't do much for me. Wherever the stories are set, the characters with one exception in a rather good story about rebellious teenagers reoccupying an abandoned city and making its machinery work again are unrelentingly white and upper middle class.

The Collected Short Fiction of C.J. Cherryh by C.J. Cherryh

I'd also include it in one about alien contact. Like by looking into the void and bringing some interpretation back to the masses the writing is above it all.

The Complete Short Fiction of John Wyndham

But, as Oscar Wilde is the author, all the stories are for that reason indispensable. Fans of a specific genre within her work will find that some stories in here will not be of interest, while others will be mind-bending. The title says it all.

The Complete Shorter Fiction of Virginia Woolf: Second Edition: Woolf, Virginia: 9780156212502: vivchar.tom.ru: Books

In addition, if you have read some of her longer fiction you get glimpses into how her novels emerge, or even proto-stories that eventually were turned into longer books. It is refreshing and leaves one in a pleasant and musing mood. The apotheosis of this most ballardian phase of Ballard was, of course, Crash.

The Complete Short Stories by J.G. Ballard

Black, 12 point, double-spaced font is also standard. But beyond mood and menace, most of these pieces barely function as stories. Times New Roman or Courier are preferred.

The Complete Shorter Fiction of Virginia Woolf: Second Edition: Woolf, Virginia: 9780156212502: vivchar.tom.ru: Books

Most of the 21 pages of his Introduction are heavily laden with somewhat forbidding literary criticism but, granted a good deal of academic dryness, the piece is well worth reading for some insightful observations regarding the vast social dimensions of Wilde's stories; it also gives a brief summary of the major events in his life. In hindsight, I should have gotten this 1,000+ page book for my ereader device.
