## Children's Unstructured Play

. Salt Lake City, UT: NAFCC. Involving multiple stakeholders At the planning stages, project sponsors should invest their time and resources in developing partnerships that are most likely to contribute to their ultimate goals.

## Case studies and evidence

COMMENTSAlthough children freely interact and can contaminate each other while awake, reducing the transmission of infectious disease agents on large airborne droplets during sleep periods will reduce the dose of such agents to which the child is exposed overall.

## DunRite Playgrounds: October 2010

Potential peer mediators were consulted so that their ideas could be incorporated in the training design, ensuring that it would meet their needs. However, at this stage, the youth can become more involved in the delivery of the program B. Facilities should be informed and follow current recommendations of the American Academy of Pediatrics AAP about pacifier use 1-3.

## Guide to Playground Safety

Salt Lake City, UT: NAFCC. Washington, DC: National Conference of State Legislatures; Zero to Three.

## S.A.F.E.™ Framework for Playground Safety

Including students in program development and delivery In Canadian anti-bullying initiatives, students are more likely to be involved in project delivery rather than project development.

## **Risk assessment**

Public Health 2015, 12 6504 167. For example, ringworm is transmitted by the sharing of personal articles such as combs, brushes, towels, clothing, and bedding.
