Communication Style Quiz

Would you like to see what kind of communicator you are? Self-confidence is important in many aspects of life.

Developing Baseline Communication Skills by Catherine Delamain

You must have a clear understanding of the boundaries of the project. Then, combine what you see and hear to know how to act on a cue.

Communication Style Quiz

Catherine formed part of a pioneering team of paediatricians, speech therapists and clinical psychologists, to provide multi-disciplinary diagnosis of children with autistic spectrum disorder. For example, when a client is unhappy with a project that is over budget, a software developer must have the skills to diffuse the situation and communicate effectively.

Communication Style Quiz

An ongoing area of study is the search for better ways to diagnose and differentiate among the various types of speech delay.

Speech and Language Developmental Milestones

Define the scope of the project.

Speech and Language Developmental Milestones

Active Listening Active listening refers to the process by which we elicit information from either an individual or a group.
