When Can a Puppy Go Outside?

X Research source You could try keeping her outside supervised until she pees, then bringing her in and rewarding her with LOTS of praise and treats. How do you reconcile the need for socialization with the need to protect your puppy against fatal contagious diseases like and? This is why you got a puppy in the first place, right? She has a Master of Business Administration from Santa Clara University and a BS from Rutgers University. Puppies typically receive multiple injections with the same type of vaccine starting at age 6-8 weeks.

How to Litter Train a Dog (with Pictures)

His eyesight and hearing improve daily, and by the time he's 3 weeks your pup will be toddling around, trying out his voice and beginning to play with his siblings.

How to Litter Train a Dog (with Pictures)

Your baby is an adult - at last! If you do not teach your puppy bite inhibition and provide them with appropriate objects to chew on, they will grow into an exuberant adolescent dog that may be more difficult to manage. Patience, time, consistency, and some favorite treats help greatly.

How to Litter Train a Dog (with Pictures)

Beverly has over 18 years of dog behavior training experience and specializes in dog aggression and anxiety training.

Dogs in Heat: 9 Things to Know

Your pup isn't a baby any longer, but he's not really an adolescent either, he's in that no-man's land and you're not the only one who's confused about what he can, or should, be doing! Therefore, it may find secret places to urinate. Also, use this time to determine a schedule for the dog.
