## Disaster preparedness among nurses: a systematic review of literature

It is important for victims to take specific action to help themselves and their families. Whether the disaster is man made, such as war or terrorism, or from nature, nursing has always been at the forefront.

### Disaster Preparedness

The nurse must use imagination and resourcefulness in dealing with a lack of supplies, equipment, and personnel.

## Disaster preparedness among nurses: a systematic review of literature

However, it is widely reported that nurses are insufficiently prepared and do not feel confident responding effectively to disasters.

### DISASTER NURSING

Goolsby and Kulkarni 2006 further classify disasters according to the magnitude of the disaster in relation to the ability of the agency or community to respond.
