## Everyman's Original 1000

Describe the benefits of the world and their costs- including costs like the loss of family and the loss of art. In Huxley's world, Bokanovsky's budding process and Podsnap's ripening technique can produce over 15,000 brothers and sisters from a single ovary. Captain Marryat : King's Own 581.

## Library : Sex in Contemporary Literature

He did not shrink from the anointing hands that had caressed the bodies of men in the passion of a thousand nights. Their style, when they write to their friends not for the booksellers, is better than that of most authors. Huxley and the composers of *I Met a Walrus* craftily yet very markedly tied in theories of truth and its relationship with representation throughout their texts, acting as a spine which soundly holds together the integrity of their ideas.

## Brave new world

By their wit, sense and eloquence together, they generally contrive to govern their husbands. You are just recounting the conversation.

## Ten ways in which Shakespeare changed the world

I really don't have any suggestions here just yet.
