

# Non-occupational exposure to mineral fibres

## International Agency for Research on Cancer - Evaluation of Alveolar Burden of Mineral Fibres in Cases of Occupational and Non Occupational Exposure to Asbestos

Description: -

-

United States -- Economic policy -- 1961-

United States -- Social policy.

Budget -- United States.

Arab-Israeli conflict.

Respiratory Tract Neoplasms -- etiology.

Minerals -- adverse effects.

Environmental Exposure.

Carcinogens, Environmental.

Environmentally induced diseases -- Congresses.

Carcinogens -- Congresses.

Mineral dusts -- Congresses. Non-occupational exposure to mineral fibres

### Mineral Fibres in Cases of Occupational and Non Occupational Exposure to Asbestos

Ann Occup Hyg 1987; 31: 429-439. Lung asbestos content in chrysotile workers with mesothelioma.

### Airborne mineral fibre levels in the non

We identified eight relevant studies; most were conducted in populations with relatively high exposure levels. A review of 70 serial cases.

### Comparison of fibre types and size distributions in lung tissues of paraoccupational and occupational cases of malignant mesothelioma.

Many asbestos materials are present in homes, and fibres may be released during home renovations or repairs.

### Airborne mineral fibre levels in the non

Airborne asbestos concentrations in buildings.

### Evaluation of Alveolar Burden of Mineral Fibres in Cases of Occupational and Non Occupational Exposure to Asbestos

Effets sur la Santé des Principaux Types d'Exposition à l'Amiante. Evidence exists suggesting that vehicle braking makes a significant contribution to ambient asbestos levels, but more data are required to establish its extent. Arch Environ Health 1991; 46: 306-309.

### Evaluation of Alveolar Burden of
