BIG

Aalto University team consisting of professor Turkka Keinonen and doctoral candida Nils Ehrenberg has its core competence in human-centred and collaborative design and as well as in design ethics. This includes the time in which we exist, the time that passes and the time spent performing the craft. In 2011 the project won at , that was initiated in 1959 in England to honour the best in architecture, design and planning etc.

The Wave (Vejle)

Together with One Architecture and Sherwood Engineers, we are thinking of ecology, people, infrastructure and transit working together as self-enforcing systems.

Lessons from Denmark, Action at Home

Ole has vast experience in project management and controlling of both large and small-scale projects.

nord architects designs community center and parish in CLT wood in denmark

BIG L transcends traditional disciplinary boundaries by weaving together building and landscape, planning, and programming, indoor and outdoor, public and private, to generate unforeseen typologies and synergies between the built and the grown.

Danish National Maritime Museum

Named as a BIG Barcelona Partner in 2021, João Albuquerque began his BIGster journey in BIG Copenhagen in 2008, eventually moving to Barcelona in 2019 to support the establishment of a strong foundation for BIG Barcelona. This new medium-sized development would not only transform the neighborhood into an active center, but would give more horizontal dynamism to the fabric of the area. Ballerup Library has over 500 public events per year.

Ten projects from the Royal Danish Academy propose solutions for a sustainable future

By placing the museum this way, it appears as part of the cultural environment associated with the Kronborg castle and the neighboring Culture Yard, while at the same time manifesting itself as an independent institution. The Y-shaped aluminum beam creates a visual and functional overlap between seat and base.

Civic Data Design Lab

BIG E maximized efficiency by designing the three tower structures using the common concrete core, columns and flat slab approach.

MindLab (Denmark)

Most recently, Ole was oversaw the completion of Glasir — Tórshavn College, a 19,200 m² education centre on the Faroe Islands.
