Mary Lawton Metcalfe

The enjoyment of seeing a couple kiss or a heroine return after an odyssee of some sort is in the cinema incomplete when it is not shown. Mae Murray as Writer Face Value.

The silent proscenium, 1896

The best documented proposal is Menninghaus et al.

A psychology of the film

Phi, the most famous, was first documented by Wertheimer in. The overtone montage, though more abstract, acts similar to the tonal in that it derives meaning from the images to dictate cutting.

Reel to Real: Psychology Goes to the Movies

The current state of research does not allow for it. Strictly speaking, any outline of the philosophy of film should be divided into two parts: 1 a philosophy about film and 2 film as an philosophy.
