Host Country Effects of Foreign Direct Investment

Foreign aids may not only have positive effects on economic development and growth of developing countries as the host countries, but may also bring about some undesirable impacts on those countries, which include import inappropriate technology, distorts domestic income distribution, and encourages a bigger, inefficient and corrupt government in developing countries.

Foreign Investment and its Impact on Developing Countries

Foreign direct investment and economic growth in Bangladesh. Foreign Direct Investment, Financial Development and Economic Growth.

Positive Effects of Foreign Investment

Simple robust regression of GDP per capita growth on FDI to GDP shows the positive relation and statistically significant at 1 per cent between the two variables, which the estimated coefficient is 0. The importance of the primary sector for these economies can be explained by their large oil production.

Differential Impacts of Foreign Capital and Remittance Inflows on Domestic Savings in the Developing Countries: A Dynamic Heterogeneous Panel Analysis

Another school of thought also concerns about some negative impacts of FDI to recipient countries. This research paper also discuss a number of policy issues which arise from the result of the analysis relation to education, population growth rate, foreign direct investment, external debt, foreign aid and their proper utilization. China had a substantial outflow of FDI but had only one MNE among the 100 largest in 2002.

Economic Growth of Pakistan: Effects of Foreign Capital Inflows.

There is also some evidence that its share is higher in countries where the quality of institutions is lower. We are a ISO 2001:2015 Certified Education Provider. Reinvested earning are profits which are retained and reinvested by affiliates.
