The contributions are by a wide range of specialists, writing on topics including corpus linguistics, phonology and phonetics, morphosyntax, pragmatics, the role of the speaker and speech context, language acquisition and grammaticalization.

Sociolinguistic Variation

It has been seen that many factors influence pronunciation, and therefore the phonologic system of an individual. The results showed that French Canadians viewed European French as socially more desirable than Canadian French. These take the form of contextual conditioning: certain linguistic contexts favor the occurrence of particular variants.

The resear techniques d sed by the American linguist Labov for subjective evaluation of language were used to examine atti s. .

A phonological and sociolinguistic survey of students in a French Canadian high school

This edited volume seeks to bring discussions from different subfields of linguistics together to explore language variation in a broader sense and acknowledge the complexity and interwoven nature of variation itself. The attitudinal investigation incorporating two 'self-evaluation' tests and a Likert type scale was used to measure the degree of presence of subject's attitudes towards their own speech, and Quebec French as a whole.
