## Public health

Youth literacy rates were higher 69% than adult rates. Now, we keep both manual and electronic folders, and accessibility to data has improved. What type of service integration, if any, is needed? All RAND monographs undergo rigorous peer review to ensure high standards for research quality and objectivity.

## Rural health around the world: challenges and solutions1

That, if nothing else, is the ultimate achievement. It is in rural practice that integration of health care is well exemplified.

## Challenges in Program Evaluation of Health Interventions in Developing Countries

The principal causes of sickness and death among small children in the less-developed world are , infections, and malnutrition, all of which are intimately related to , custom, and economic status.

## Global Health

Many are due directly to ineffective planning and management. Washington, DC: American Public Health Association; 2005. Horizontal Approaches to global health challenges, My Global Fund Beta Web site.

## Challenges in Program Evaluation of Health Interventions in Developing Countries

Commonly, in rural areas, there is a higher alcohol and tobacco consumption, and standards of nutrition vary when compared with the cities. Changes in Project Management Policy First, as building blocks of development, projects must be identified and defined within a larger

development context. For information on reprint and linking permissions, please visit the page.
