Results and experiences RelayStar is currently operational in the Benelux and is being rolled out in the United Kingdom.

## **TOWARDS SUSTAINABLE FREIGHT MOVEMENT IN THE CITY**

The Australia—Nauru Pacific Partnership for Development outlines the priorities for Australian assistance through to 2015. In anticipation of the high level of interest among Canadians with respect to a possible Canada-China FTA, the duration of the consultation period 90 days was significantly longer than prior consultations and covered an extensive range of interests and stakeholders across the country.

### **News**

In 2010, he led a consolidation centre study for the DfT that studied the business case and social benefits of consolidation in the retail and construction sectors, as well as leading the feasibility study that led to a successful sustainable distribution centre for Southampton City Council that serves public and private organisations in the area. While the initial public consultations have now concluded, we remain committed to hearing from Canadians on their views regarding a possible Canada-China FTA.
