## 'Super' stresstolerant wheats outcome of new alliance by Maria Taylor

Wheat breeding programs are important to producers and consumers. India has witnessed devastating famines, most notably the Gujarat famine of 1899 and the Bengal Famine of 1943 which led to the death of about three million people Burton, 2010; Basu, 1986.

## CiteSeerX — vivchar.tom.ru 1The Economic Impact in Developing Countries of Leaf Rust Resistance Breeding in CIMMYT

It is possible to apply at any stage and promote only those selected BP with the highest GEBV.

## Genetic Gains in Wheat Breeding and Its Role in Feeding the World

Ayenat MAT, Ofori K, Ahoton LE, Danquah A. De Buyser J, Lonnet P, Hertzoc R, Hespel A.

## Impact and returns on investment of mungbean research and development in Myanmar

At regional level, CGIAR-related varieties account 97% in South Asia of which more than 50% are direct releases.

## Welfare Implications of Wheat Breeding Programs

The average yield advantage was greatest in Queensland, NSW and Victoria, and lowest in the drier states of the South Australia and Western Australia. The largest yield increases were observed in Asia and Africa 3. Western Australia was much slower to reach that level of adoption, but by 1997 had reached over 90% of its area sown to CIMMYT semi-dwarfs.
