Crisis Management, Emergency Response & Preparedness

Though some of these scenarios may seem unlikely, it's prudent to give them consideration. The BC Guideline is a series of interrelated processes and activities that will assist in creating, testing, and maintaining an organization-wide plan for use in the event of a crisis that threatens the viability and continuity of the organization. Installing fire and burglar alarms also makes sense.

Emergency Preparedness: Business Continuity, Missouri Alliance for Home Care (MAHC)

This site includes information regarding various business continuity areas. Test your business continuity plan Once your plan is in place, you'll need to test how well it's likely to perform in the event of an emergency. It can be used by manufacturers, corporate offices, retailers, utilities or any organization where a sizable number of people work or gather.
