TAPSOFT '93: Theory and Practice of Software Development: 4th International Joint Conference CAAP/FASE, Orsay, France, April 13

The selected papers for FASE are presented in eight sessions: case studies in formal design and development, compositionality modules and development, formal development, foundations and analysis of formal specifications, verification of concurrent systems, model checking, parallel calculus, and a common session with CAAP on type inference.

TAPSOFT '93: Theory and Practice of Software Development

The selected papers for FASE are presented in eight sessions: case studies in formal design and development, compositionality modules and development, formal development, foundations and analysis of formal specifications, verification of concurrent systems, model checking, parallel calculus, and a common session with CAAP on type inference.

TAPSOFT '93 : theory and practice of software development : 4th International Joint Conference CAAP/FASE, Orsay, France, April 13

Since the first in 1985, the aim of these conferences has been to bring together theoretical computer scientists and researchers in software engineering with a view to discussing how formal methods can usefully be applied in software development.

9783540566106

The selected papers for CAAP are organized in seven sessions: specifications and proofs, concurrency, automata and counting, constraints solving, rewriting, logic and trees, analysis of algorithms, and a common session with FASE on type inference. Jean-Pierre Jouannaud - Constraints in Computational Logics: First International Conference, CCL '94, Munich, Germany, September 7 - 9, 1994.
