Dynamics of Change in Southern Africa (1994, Hardcover) for sale online

An up to date survey of political and economic trends in the Southern African region. Seed dispersal is mostly zoochorous and spatially aggregated with a large proportion of seeds deposited in woody plant microsites.

Dynamics of Change in Southern Africa (1994, Hardcover) for sale online

Based on this, we infer that an ICV value above 60% resembles a realistic rainfall variation between favorable and unfavorable periods of a 22-year oscillation. The Arctic Ocean, especially the Siberian shelves, overlays large areas of subsea permafrost that is degrading.

CP

To define parameters for climate change scenarios it is necessary to improve the knowledge about past climatic changes in this area. If shrub cover exceeded K, individuals in the cell died. We also study potential links of the EASM to the tropical Pacific and North Atlantic oceans.

The Dynamics of Change in Southern Africa

This implies more westerly airflow and the increased projection of the ASL onto the South Atlantic.

Climate Change in Southern Africa

This upper limit could be clearly assigned, because the carrying capacity of cell type T had been reached, i.

The Dynamics of Change in Southern Africa

Table 1 Probability values for low first value and high rainfall years second value for climate change scenarios: increase in precipitation 1 ; decrease in precipitation 2 ; increase in inter-annual variation of precipitation 3 ; increase in temporal auto-correlation of precipitation 4 with 'good' phase 4 a and 'poor' phase 4 b.

Climate Change in Southern Africa

We report an extensive ^{14}C source apportionment record in the Netherlands with samples covering a whole year. While the region boasts an incredible diversity of ecosystems, natural resources, economic activities and cultures, it is also characterized by rapid population growth, urbanization of coastal areas, encroachment into ecologically marginal areas and poverty.
