Mindfulness in sustainability science, practice, and teaching

Critical transitions in nature and society. Hence, there are trade-offs between resilience of a social-ecological system to a small set of known kinds of disturbance versus the vast universe of unknown novel shocks e. This is in stark contrast to the potential role of science education in mediating the structure and function of the brain to support sustainable change Powietrzynska et al.

'Hope is an embrace of the unknown': Rebecca Solnit on living in dark times

The Effects of Altered Diet on the Health of the Karuk People. Aboriginal Peoples and Knowledge: Decolonizing Our Processes.

Ecology and Society: Resilience (Republished)

Through these relations, fishers become indebted to a patron, which in turn affects the amount of extractive effort applied and needed to repay debts , and ultimately ecosystem dynamics. Land grabbing as a driver of environmental change. Thus, when the Fukushima accident happened, they were ready.

Rudolf Bahro

Surprisingly, they can present remarkable opportunities to create larger systemic change.

Bahro, Rudolf 1935

This is an obvious fact in a situation when the scale, connectivity, spread, and speed of human actions shape the dynamics of the biosphere and the earth system as a whole e. Tulsa Law Review, 39, 271—311. Complexity theory for a sustainable future.

Rudolf Bahro

We lurch between contrary positions, recognising the right thing to do whilst continuing with practices that, deep down, we know to be wrong. The tragedy of history is the increasing ascendancy of mechanism, and the progressive destruction of our organic ties to nature and to one another. The maturation and diversification of environmental sociology: from constructivism and realism to agnosticism and pragmatism.

Avoiding dualisms in ecological economics: Towards a dialectically

. One came from the recognition of how powerful are the altruistic, idealistic forces already at work in the world.

Monthly Review

Current definition of resilience thinking: integrating resilience, adaptability, transformability Resilience reflects the ability of people, communities, societies, and cultures to live and develop with change, with ever-changing environments. In books such as *Avoiding Social and Ecological Disaster*, *The Politics of World Transformation* 1994 , he conceives a future shaped by world-wide abdication from industry to subsistence farming.
