Science & Philosophy

If energy enters a vacuum, it must come from somewhere outside the vacuum. But how did we do this?. A black hole and a singularity are not the same thing.

How Should We Then Live? The Rise and Decline of Western Thought and Culture by Francis A. Schaeffer

Pope Pius X points out in Pascendi that in the same work by a Modernist scholar one page can be found to be totally orthodox in formulation, and the next heretical.

TNR_brand monogram_black

It means, for example, that a given region of vacuum energy retains the same energy density, no matter how much the region expands.

Reincarnation: Will You Live Again?

We not only do not know anything about these divinities, but we also cannot have access to them because they are subtle organisations of highly potent divine elements and they cannot be contacted unless certain disciplines are practised. Asia is now in the driving seat of the study of human evolution. That is one side of the matter.

Modern Science Meets Ancient Philosophy

Thou shalt love the Lord thy God with thy whole heart, and with thy whole soul, and with thy whole strength. Schaeffer traces the decline of culture and thought that has occurred within Christianity.

Watch How Should We Then Live?

Suppose that one twin goes to live on the top of a mountain while the other stays at sea level.
