United States History

The abundance of ice meant that sea levels were much lower than they are now, and a stretch of land emerged between Siberia and Alaska. It was a time when most of North America was covered with a thick sheet of ice, which made the Americas difficult to inhabit. But the same records show that, starting in about AD820, the region was ravaged by 95 years of punctuated droughts, some of which lasted for decades.

African American Genealogy • FamilySearch

He sailed back to England in early September. But then again, that had always been the case. Melissa Hogenboom is BBC Earth's feature writer.

The First American (2016)

The new census data show that the annual migration rates of renter households have declined precipitously over time from 30. Then the first signs of irrigation began to appear, and by 300 B. For this reason there is no need to duplicate state resources here.

African American History

All Indians lived in organized societies with political structures, moral codes, and religious beliefs.
