The social construction of HIV/AIDS

Stapel DA, Reicher SD, Spears R.

social origins and expressions of illness

Department of Health and Human Services. If an unscientific account about a phenomenon is considered as legitimate as empirical research about that phenomenon, there is no clear path forward for research to make a meaningful impact on society. Please refer to PDF for full text.

Senate voting and social construction of target populations: a study of AIDS policy making, 1987

Van der Pligt J, Otten W, Richard R, van der Velde F. American Behavioral Scientist, 42, 1193-1211. .

The Effect of Social Networks and Social Constructions on HIV Risk Perceptions

The institutions we studied appear to have absorbed the impact of AIDS and accommodated to it in a very limited way. Reaching deeper into the language, however, impact has a more powerful meaning—collision. It seems likely that the epidemic—and the increased organization among the gay and lesbian community in its wake—contributed to its passage.

The Social Construction and Social Representation of HIV: An Anthropological Study

Second, there are delays from the time of diagnosis to the time a case is reported to the CDC.

The social construction of HIV/AIDS

These longer term responses would be interesting to follow, and we hope that researchers will attempt to do so.

AIDS as social construction: text mining of AIDS

The introduction of a parallel track model in clinical research and drug regulation in clinical trials is perhaps the most disquieting of the AIDS-related changes to the scientific community, since both the purposes and the procedures lack clarity or consensus.

AIDS as social construction: text mining of AIDS

The question of whether to screen inmates for HIV antibodies has arisen with particular urgency in the prison setting, with no general resolution. Applied ordinal logistic regression using Stata: from single-level to multilevel modeling. It seeks to promote human dignity, equality, peace, and genuine security.
