Environmental Assessment

The proper management of these risks requires scientifically-based decision making.

Environmental Assessment

For prospective students considering a graduate certificate or degree program, up to two of the courses can be taken for credit as an NDS student and transferred to a program if the prospective student then chooses to enroll in the program.

Environmental Assessments

Students are required to take at least one course per semester Fall and Spring for the duration of the program unless financial aid or other considerations require half-time 4.

Environmental Assessment

Try a course or two from the Environmental Assessment Program as a Non-Degree Studies NDS student.
