.

**Kurt Cobain's Mesa/Boogie Studio Preamp**

The Bad Batch continues to tell the story of what happens to the clone troopers after Order 66 as the Old Republic falls and the Empire rises. Watch the world reveal The New War from TennoCon, launching on Warframe later this year.

**NIRVANA The Day by day eye witness chronicle**

Aggressive yet melodic, poppy yet muddy, with enigmatic but engaging lyrics, Nirvana broadcasted a message of disaffection, isolation, and anger to a group of American kids whose ears were suddenly open. In 1988, indie record label Sub-Pop signed the band and changed rock history. She lives in Los Angeles.
