Dartmoor Place: Apartments and Townhomes in Hanover, MD

The landscape consists of moorland capped with many exposed granite hilltops known as tors, providing habitats for Dartmoor wildlife. This could be due to their history, their setting, their offer or often due to all of this and more. The Arthur Westlake Museum and our railway bookshop are open.

VisitDartmoor

Getting the line ready Teams across Network Rail have been inspecting the existing railway to see what improvements are needed to bring the infrastructure up to standard. From summer 2022, the hope is to increase the train service to hourly, with more trains running as far as Exeter Central. The Dartmoor Line will help extend the reach and social and economic benefits of the railway, further supporting the communities it serves.

Dartmoor National Parks // Dartmoor Wildlife Park

Okehampton station is at the northern tip of Dartmoor National Park. The station has been well maintained since, thanks in large part to the Dartmoor Railway and the work of Dartmoor Railway Association volunteers. We will work with local stakeholders to reopen the café, while other sympathetic uses of the station are currently being investigated.

Dartmoor National Parks // Dartmoor Wildlife Park

We enjoin our members and supporters to comply with the government's during the Covid-19 crisis, and to do everything possible to keep themselves, their loved ones and the community safe.
