Gloomy year projected for North Sea amid record

These included the preparation and publication of Safety Cases, the strengthening of Safety Management Systems, independent assessment and survey, legislative changes and changing the regulatory body.

Proposed Demerger of the UK Continental Shelf oil & gas assets of Petrofac Energy Developments to create EnQuest PLC

Later this year, uncertain economic conditions forced Shell to postpone the project to 2021.

Oil's not well: UK industry in crisis as pressures continue to mount

During this time, seven fatal helicopter accidents claimed the lives of 94 offshore workers and flight crew. FPAL currently matches the needs of over 70 purchasing organisations with the capabilities of over 2,400 suppliers. The findings, which cover the six months to October 2020, provide a stark illustration of the economic turmoil which has resulted from the CV19 pandemic with confidence across the industry now as low as during the global industry downturn in 2015.

Number of abandoned wells overtakes fresh drilling, says OGA report

Gas production and export began on 20 December 2005. In comparison, 14 exploration wells were drilled last year with only one becoming commercial.

Well slot: Active wells and completions in Westwood report to month end

This Demerger provides shareholders with an opportunity to retain an investment in a separately listed entity and the ability to participate in its future growth prospects. I am excited about the future prospects of the Company and the opportunities available to us. In testing a production well, the test can be made by flowing into the production pipeline.

Oil's not well: UK industry in crisis as pressures continue to mount

Norwegian oil and gas giant Equinor has initiated an exploration campaign on the UK continental shelf UKCS comprising five wells in 2019, which is a record number for the company.

National Geological Repository

Sverdrup phase 2 will also supply other fields on the Utsira High with power from the shore.
