### Improving students' relationships with teachers

Incorporate problem-solving activities and provide discussions when failures occur. The student is likely to trust her teacher more, show more engagement in learning, behave better in class and achieve at higher levels academically. It is teachers who have created positive teacher student relationships that are more likely to have the above average effects on student achievement.

### Why Strong Teacher Relationships Lead to Student Engagement and a Better School Environment

Ideal classrooms have more than a single goal: teachers hold students to appropriately high standards of academic performance and offer students an opportunity for an emotional connection to their teachers, their fellow students and the school e. The teacher allows students to question his thinking, a type of questioning that fosters learning, as the student describes.
