The Exploration and Conquest of the New World

As scripture says, 'From his heart shall flow streams of living water.'

The Exploration and Conquest of the New World

This era in Western Europe is referred to as the early modern European period and includes the Protestant Reformation, the European wars of religion, the Age of Discovery and the beginning of European colonialism, the rise of strong centralized governments, the beginnings of recognizable nation-states that are the direct antecedents of today's states, the Age of Enlightenment, and from the associated scientific advances the first phase of the Industrial Revolution.

The History of Space Exploration

Italian explorer, cartographer, and navigator Amerigo Vespucci has played significant role in the history of the Age of the Exploration by managing to be first to come to the conclusion that newfound New World on the west of the Europe is a standalone continent and not a part of Asia.

Question: What is created on the 5th and 6th days and what is God's final judgement on Creation? Portugal, the western-most European country, was one of the primary players in the European Age of Discovery and Exploration. A brief examination of how the Age of Discovery 15th to the 17th century Europe effected both the population of Europe and the population of the New World.

European Exploration: c. 1450

Soon, however, a royal judge began a formal investigation of accusations that Coronado was guilty of brutality toward the Native Americans. Officials worried these technologies could put Americans in danger. They become the first to survive an Antarctic winter involuntarily! For many Europeans, the answer was more often favourable.
