Access to Justice for Women and Girls with Disabilities in India

A 2011 study found that 21 percent of the 314 women with disabilities surveyed experienced emotional, physical or sexual violence from someone other than their intimate partner. Under Indian law, all hospitals, whether public or private, must provide first aid or medical treatment to survivors of sexual violence, and prompt medical examination and reporting, consistent with established legal standards, free of cost. She is Editor of the Journal of Intellectual Disabilities, Chair of the Royal College of Nursing Research Society Steering Committee and a member of the Welsh Government Learning Disability Advisory Group.

Survey of abuse of people with learning disabilities

Accordingly, in the cases covered in this report women and girls with disabilities were entitled to protection under both POCSO and the 2013 amendments. They should be properly trained and that training should not be limited to the law. It is easier to rape or slap someone who cannot move.

The ‘invisible’ needs of women with disabilities in transportation systems

This means that they often have a high bar for unacceptable behaviour. Governed by standard treatment and examination protocols, these can play a key role in ensuring care and collection of forensic evidence for survivors of sexual violence.
