The Hindenburg Disaster: 9 Surprising Facts

The majority of the victims were burned to death, while others died jumping from the airship at an excessive height, or as a consequence of either smoke inhalation or falling debris. One bracing wire tested after the crash broke at a mere 70% of its rated load. Hindenburg

Although the landing was being filmed by cameramen from four newsreel teams and at least one spectator, with numerous photographers also being at the scene, no footage or photographs are known to exist of the moment the fire started. This theory was substantiated by the presence of the lightning storms reported in the area.

Hindenburg

Maybe anticipating what would come next. Copenhagen Youth School offers free leisure-time classes and full-time education for young people living in Copenhagen. These findings were not well-publicized and were covered up, perhaps to avoid embarrassment of such an engineering flaw in the face of the Third Reich.

Hindenburg mystery solved after 76 years

She later took a career break to pursue further education and added a Master in Science from the International Space University, France, to her Bachelor's degree in Journalism from Prague's Charles University. You can also access, rectify or erase this data at any time.

Hindenburg

The Zeppelin company's promotions had prominently featured the fact that no passenger had been injured on any of its airships. In several television shows, Bain attempted to prove the flammability of the fabric by igniting it with either an open flame or a machine. Our mission is to close that gap....
