The comparative biology of the meadowlarks (Sturnella) in Wisconsin (1957 edition)

We work with many institutions to develop collections, issue catalogs published in print and electronically and posted to our wordpress website. When half-songs were used as playback stimuli, subjects were able to classify song types correctly using cues present only in the introductory portions of songs.

THE COMPARATIVE BIOLOGY OF THE MEADOWLARKS (Sturnella) IN WISCONSIN. Publications of the Nuttall Ornithological Club. No. 1 by Wesley E Lanyon

Song matching during playback experiments was used to assess how western meadowlarks, *Sturnella neglecta*, classify variants of their primary song.
