Employment Situation News Release

DESCRIPTION Census Publications, Publications des recensements. Includes ambulatory health care services, hospitals, and nursing and residential care facilities.

MARC21

In manufacturing, the workweek declined by 0. The indexes of aggregate weekly payrolls are calculated by dividing the current month's estimates of aggregate weekly payrolls by the corresponding annual average aggregate weekly payrolls. In February of this year, most of the job gains occurred in leisure and hospitality, with smaller gains in temporary help services, health care and social assistance, retail trade, and manufacturing.

Income Data Tables

Similarly, in the establishment survey, payroll employment in education declines by about 20 percent at the end of the spring term and later rises with the start of the fall term, obscuring the underlying employment trends in the industry. Discover how the 2021 Census compares to the first census conducted in Canada back in 1666.
