## Mais lecture: "Labour's cast

In March last year we saw what the Bank of International Settlements described as a massive and unprecedented response by central banks and other authorities around the world, which did indeed prevent the sudden stop in markets leading to another financial meltdown. Religious ties also appear to influence health behavior, in part, through social control. First, we need far greater transparency around the tax and spend decision-making process.

## Mais lecture: "Labour's cast

Generally speaking, there are three broad ways that social ties work to influence health: behavioral, psychosocial, and physiological. Unsupportive social ties may also present barriers to improving health behaviors and outcomes.

## Prof Geoffrey Wood

And we have to move to a new model of economic growth that is rooted in more investment, more savings and higher exports. Studies on adolescents often point to the meaning attached to peer groups e.
