## Extreme Measures (Aegis, #1) by Elisabeth Naughton

Here is a little sample from chapter two - The van exploded in a fireball that shot flames thirty feet into the air.

### Theseus

The movie, written by , is pitched at a higher level than most thrillers; the dialogue is literate and intelligent, and Grant is more of an everyman than an action hero he tones down his light comedy mannerisms and emerges as a credible doctor. Zane quit the CIA to work for Aegis, a privately owned organization that is a lot like the CIA but with less red-tape and restrictions. We meet, in the meantime, the distinguished medical researcher Lawrence Myrick, played by Hackman.

### Extreme Measures

In desperation, he manages to get the help of some homeless men who lead him to. We have a stern and idealistic United States Senator who is attempting to right perceived wrongs and ensure that America remains a nation of law and order. That revelation came later, and by accident.

### Extreme Measures Quotes, Movie quotes

The characters are well written. Several reviews were not happy that the author upped the part Mike Nash played in the book, but even though this was my first Mitch Rapp book, I was clear - he is the hero sort of Lone Ranger and Tonto with a family style.

### Extreme Measures

They realize that the burglars were after something specific from her, as they did not take anything valuable.

### Extreme Measures

DE 2008 Any hope this contrived thriller had of suspending disbelief for most readers who weren't already fans of bestseller Flynn's Mitch Rapp series Protect and Defend, etc. Bob is currently on a retreat for personal reasons, but Melanie gives Sammo the address as it is an emergency.

## **Extreme Measures Quotes**

Co-produced by actor-model Elizabeth Hurley and capably directed by Michael Apter, this otherwise conventional thriller rises above its limitations by asking morally complex questions that give its far-fetched plot an extra kick of dramatic impact. Less action than previous installments.

## **Extreme Measures (episode)**

It's funny to watch reviewers line up on one side of that political debate or the other.
