21 Closet turned office ideas

Green evokes organic, fresh, restful emotions and can foster concentration. Eco-friendly design ensures earth-friendly materials.

21 Desk Ideas Perfect for Small Spaces

Become an Office Yogi is becoming ubiquitous in tons of offices across the country — and for good reason.

14 Easy Ways to Create a Zen Office Space On a Budget

I never have to dig my way through stacks of lumber or leaning plywood, or best of all, piles of junk leaning against my stack of wood! I decided to use the space under my workbench to store the long boards and I realized that by pulling my bench out from the wall I could slide sheet goods behind it.

How to Design the Ideal Home Office

See more in our guide. We ship DAILY with free delivery confirmation. Alternatively, radiators are a good solution if you have wall space to spare.

21 Desk Ideas Perfect for Small Spaces

Photograph courtesy of Epson Depending on the nature of your business and even if you have a paperless office, you might be able to get away without having a printer. I just completed an entire office consisting of 10' desk with 2 sitting areas, a computer caddy, dual lateral file cabinets, two banks of drawers 5 drawers each, upper shelves above the file cabinets hutch, dual printer cabinet and narrow shelves with lucite inserts. I also knew from experience that I would easily lay stuff against it and soon be digging lumber and junk out of my way.

22 Home Organization Projects to Tackle In a Weekend

Add homey touches and personalize the space, so you feel comfortable.

17 Items You Need to Set up an Efficient Home Office

Keep the computer, your printer and other office equipment turned off when idle.

43 home office ideas to make working from home more productive (and stylish)

The mirrors are by Line Vautrin, the artworks are by Cy Twombly left and Jean Dubuffet, and the banquette cushions are clad in a Great Plains fabric. You can see the 2 shopvacs that were originally part of my simple vacuum system. This light, however, never has a constant color and its beauty comes from the way it is reflected and from the way it is refracted by the earth as in differing times of day.
