In the first three, he explores the idea of meaning and how we create meaning in our lives.

Philosophy Essay

The last three essays are a virtuosic review of these concepts of history and meaning as played out across the nineteenth and twentieth centuries.

Another presents an overview of Kant's ethics.

25:2 — ESSAYS ON THE HISTORY OF THE PHILOSOPHY OF MATHEMATICS

This is the final masterwork of a Czech philosopher who was the mentor of Václav Havel. Secondly, what metaphysical groundings for linguistic content were considered? He also says that, whereas the Bible contains no formal discussion of mathematics and some obvious mathematical errors he takes I Kings 7:23-26 to state that the ratio of the circumference of a circle to its diameter— π —is 3:1, a book written by an omniscient being could contain a chapter on mathematics that would still be the richest source of mathematical insight humanity has ever known. These positions constitute the background theoretical framework that is known as the New Atheism.

Heretical Essays in the Philosophy of History by Jan Patočka

Harris, who thinks that atheism is obviously true, does not dedicate much space to a discussion of arguments for or against theism. Patočkovovo filosofování přináší, zdánlivě paradoxně, chuť do života a snad i optimismus, což je svého druhu odvaha.
