### Gruenfeld Defence

Rb1 White plays Rb1 In the last 10-15 years there has been a change in the way the Ex- change Variation has been played. Rb1 The Rook goes to the half-open file and also moves out of the exposed square a1 in the Great Diagonal. In this position White again has plenty of opportunities, ranging from 7.

### Grünfeld Defence

The exchange variation is the main line and is what most players study for when approaching the Grunfeld Defense.

### Opening Repertoire: The Grünfeld Defence

Try to avoid e6 if White avoids Nf3. The idea is similar to 14. Bishops: The dark squares Bishop, is essential in the Great Diagonal.
