Alpaida urucuca

Fossil evidence shows that the orb web was in existence at this time, which permitted a concurrent radiation of the spider predators along with their insect prey. Bulletin of the British Arachnological Society 12: 67-82.

Orb

WSC: World Spider Catalog version 19. Zoologische Jahrbuecher Systematik 24: 391-468.

Alpaida morro

Journal of Arachnology 33: 785-796. Vollrath and Selden 2007 make the bold proposition that insect evolution was driven less by flowering plants than by spider predation — particularly through orb webs — as a major selective force. Mémoires de la Société des Sciences Naturelles de Neuchâtel 5: 810-820.

Hentz's Orbweaver

Ronny Kobos Kaira long sleeve midi dress in lilac polka dotted jacquard satin.

Alpaida iquitos

Species 2000: Naturalis, Leiden, the Netherlands. Bulletin of Museum of Comparative Zoology, 155, 299-379.

Orb

Composition and diversity of spider fauna in the canopy of a montane forest in Tanzania. Revista brasileira de entomologia 43: 249-269.

Alpaida urucuca

La araneofauna Araneae reciente y fósil de Chiapas, México.

NMBE

Neoscona crucifera, previously known as N.
