Introduction to the Grampian Highlands

Master bedroom is split from other bedrooms for privacy. The huge straight-running depression of the Great Glen is a very obvious physical feature, , best appreciated from some way up from its valley floor, such as from the A82 road north of Spean Bridge or north of Drum-nadrochit.

Introduction to the Grampian Highlands

This townhouse is a corner unit that sits on a culdu-sac and has one of the largest outdoor spaces in the community with a private, covered patio. Relics of the original river drainage are preserved in the courses of some present day rivers, notably in the Don, the Dee and the Tummel—Tay river system. HOA occupancy restrictions may apply.
