Many of the cytokines are T-cell products; their production represents one of the means through which the wide variety of functions of T cells are mediated. The other comes from Ernst Auhagen, who had joined the Elberfeld physiology laboratory in 1933. One of the key goals of cellular immunity is to aid the macrophages in eliminating organisms that have established such intracellular infections.

Das Diphtherieserum : ein neues Therapieprinzip, seine Entwicklung und Markteinführung

In 18th-century France, according to Anne-Marie Moulin, the method was discussed, for instance by the Encyclopédistes, but not practiced; it was made illegal by a decree of 1763, and only permitted after the revolution. For the Fifth Edition, the previous organizational structure has been generally retained. Wenn erst einmal die Heilwirkung des neuen Medikaments allgemein bekannt sei, würden, so bangte der Katholik Faßbender, viele Menschen sexuell noch zügelloser leben, denn sie brauchten ja nunmehr eine mögliche Ansteckung nicht mehr zu fürchten.
