Siting indiscriminacy: India and the global movement to ban landmines.

Other incidents were also reported in the states of Andhra Pradesh and Bihar. There are reports indicating that the Army has advised villagers to be careful and stay away from the mine infested fields. Details of individual reports are available.

Colombian children learn to identify landmines buried during country's civil war

In raising the rhetorical threshold of acceptable conduct, India has simultaneously raised the standard according to which actual conduct, however responsibly conceived, can be judged acceptable--the absence of dire consequences that affect the lives and livelihoods of civilians becomes requisite to sustaining legitimacy. Minefields are generally mapped and marked in local languages. Around 5,300 of them never returned home.

In Ganganagar, Rajasthan, a ten-year-old girl was killed and three other children injured by an antipersonnel mine when they were bathing in the village canal. **LANDMINE PROBLEM** Prior to the current mine-laying operation, the most severe humanitarian problem was to be found in conflict areas where there has been extensive use of improvised explosive devices by non-state actors.

Institute for Good Governance

However, it has not prevented the increased number of incidents involving both civilians and military personnel in the mined areas. Usually when traveling within the Civilian Control Zone, South Korean soldiers accompany tourist buses and cars as armed guards to monitor the civilians as well as to protect them from North Korean intruders.

IPCS

North Korea is a member nation of the international coordinating council of UNESCO's Man and the Biosphere Programme, which designates Biosphere Reserves.

Landmine and Cluster Munition Monitor

Even after Gung Ye was by his own generals and replaced by , the man who would rule over a united Korea as the first king of , this Buddhist influence would continue, playing a major role in shaping the culture of medieval Korea.

Landmine and Cluster Munition Monitor

Regional co-operation must form an essential and kernel part of any future legal regime for banning and demining in the South Asia region. Landmine is a most dreaded, lethal and crippling device of modern warfare and devastates human limbs beyond any possible cure and care. This fact has compelled Turkey to not actively oppose HTS.
