## Paul Ricoeur

He concludes with a comprehensive survey and critique of modern discussions of historical knowledge, understanding, and writing from Aron and Mandelbaum in the late 1930s to the work of the Annales school and that of Anglophone philosophers of history of the 1960s and 1970s. Many of the essays appear here in English for the first time; the editor's introduction brings out their background in Ricoeur's thought and the continuity of his concerns. ## Paul Ricoeur

Even if the philosopher gambles on the superiority of the myth of the fall because of its affinity with the avowal that freedom makes of its responsibility, even if taking the myth of the fall as the central reference point allows us to regroup all other myths, the fact remains that the myth of the fall does not succeed in abolishing or reducing them.

Here he further develops his general theory of interpretation in relation to his own philosophical background and influences: Hegel, Husserl, Gadamer and Weber. So perception really is just an immediate awareness of something in the mind that does not call upon previous experiences or any reasoning process, such as inference. He said they were blind men leading the blind, one after another.

Their fundamental principle was nature svabhava.

## Philosophical anthropology

Kant holds this principle to be implicit in common human reason: when we make moral judgments, we rely on this criterion, although invariably we do not articulate it as such. . Individuals can access this ideal by reflecting on their interests as members of the human race.
