### Theatres and concert halls in St. Petersburg, Russia

For instance, Shatrov produced neo-Leninist work called Dictatorship of Conscience which criticized unfaithful communists in the time. Each of these sections, detailed below, holds rare works of art and features expert, life-size reconstructions of early Soviet display objects or spaces, commissioned especially for this exhibition. Their talents were somehow restricted to some extent.

### 'DAU': A Weird Soviet Exhibition 14 Years in the Making

Theatre was very powerful tool in the time as it cultivated support from the masses.

### Revoliutsiia! Demonstratsiia! Soviet Art Put to the Test

The stripped-classical structure formed a semi-circular columned courtyard, in the middle of which stood a 180-foot pylon that supported a 79-foot statue of a worker holding aloft a red star. The multiscreen technique was omnipresent, transforming everyday sights and sounds into more vital images.

### Expo 67

Theater in the Soviet Union The Soviet Union has a very interesting cultural heritage in theatre.

### Russia's stage revolution: when theatre was a hotbed for impossibly space

This was in an attempt to protect their interests. Figure 11: Soviet pavilion at Expo 70, Osaka.

### How Theater was used in the Soviet Union

In the autumn of 1924, having recognized the new socialist state, France invited it to the forthcoming International Exposition of Modern Decorative and Industrial Arts, to be held in Paris from April until October 1925. While abroad, he continued to produce theatric materials like masterpieces.

## **Stalin's Soviet showcase under spotlight at Venice architecture biennale**

Figure 10: Lines in front of the Soviet pavilion, Expo 67. Since London's Great Exhibition of 1851, periodic world's fairs, international expositions, universal expositions, and world expos, as they have been variously called over the years, have given nations a chance to define themselves to the world by presenting to an international audience what they do best in industry, science, and the arts. There are fifteen volumes of visitors' comments.

### **Soviet theatre**

The United States came out ahead in the architecture of its pavilion, while expo-goers rated the content of the Soviet pavilion much more highly. January 2016 I was impressed by both exterior and interior of the theatre — statuesque and large-scale. Germany did not participate in the fair, so there was no repeat of 1937's symbolic confrontation between gigantic pavilions and their opposing ideologies.
