

# Social work and people with dementia - partnerships, practice and persistence.

**Policy - Social Work and People with Dementia : Partnerships, Practice and Persistence by Margaret**

Description: -

Approach to diversity	Country or region	Social, historical, and political context	Multicultural policy orientation	Approaches to social work practice
Multiculturalism from below or weak multiculturalism	Europe (e.g. France, Britain, and Germany)	Strong national identities both within and across countries; entrenched cultural norms and values	Assimilationist; tendency toward absence of official multicultural policies; emphasis on immigration and anti-discrimination policies	Range from cultural sensitivity to antiracism
	USA	Strong national identity; tension between established and evolving cultural norms and values	Assimilationist; absence of official multicultural policies; emphasis on immigration and anti-discrimination policies	Range of practitioners using antiracism or anti-oppression; predominant focus on cultural competence
	Australia	Emergent national identity; multiple cultural norms and values	Increasingly assimilationist; presence of some official multicultural policies	Range of practitioners using antiracism or anti-oppression; predominant focus on cultural competence
Multiculturalism from above or strong multiculturalism	Canada	Complex and multiple national identities; evolving multiple cultural norms and values	Management and promotion of difference; presence of official multicultural policies	Range of practitioners using antiracism or anti-oppression; predominant focus on cultural competence
