### Pricing Irrigation Water: A Literature Survey

These include volumetric pricing, non-volumetric pricing methods, and market-based methods. Lastly I would once again like to acknowledge the extensive comments and editorial suggestions provided by Geoffrey Spencer, Shobha Shetty, Alex Norsworthy, R. This volume is the report of the proceedings of the above workshop held at the Irrigation Department, Colombo, Sri Lanka on 20 February, 1996.

### PIM

These political groups may slow, divert, or stop desirable reforms e.

### CiteSeerX — JI'e

For formal water markets to work there needs to be buyable and sellable water rights. Research initiative supported by the UK Department for International Development Project R8323 apas;Implications of customary laws for implementing Integrated Water Resources Managementapas; and the Water Research Fund for Southern Africa.

### Land settlement planning for improved irrigation management: a case study of the Kirindi Oya Irrigation and Settlement Project

The validation process was quick because it was guided by PDR results.

### Externally Published :: IWMI

In section 4, recent literature surrounding water institutions is reviewed. The project assigned the establishment of farmer organizations FOs and the

promotion of farmers' associations; participation in these associations to ARTI. In addition equity concerns pertaining to irrigated agriculture are important when addressing international aid and development issues.

When these shares are tradable, efficient allocations can be achieved by equating marginal values across users Seagraves and Easter, 1983.

**Externally Published :: IWMI**

Frame work for use in assessment of irrigation system performance and diagnosis of the primary causes of different levels of performance actually achieved. With the parent project on water pricing guidelines in mind, the appendix contains a survey of current irrigation case studies and a reference section on relevant methodologies and data sources for calculating crop-water requirements.
