Health and Safety Guide for the Commercial Roofing Industry.

Coatings appeared to grow the most, as 45% of contractors said sales increased in 2020. Be sure to take breaks from the heat and drink plenty of water. PROVIDE the right equipment Workers who are six feet or more above lower levels are at risk for serious injury or death if they should fall.

Health and Safety Guide for the Commercial Roofing Industry.

In fact, there is likely no place on the web where you can download a library of safety topics that are specifically designed just for roofers.

Insurance

But a harsh reality set in mid-March as the COVID-19 pandemic took a foothold on both coasts and washed across the United States in horrific fashion.

Construction

Secure your window cleaning tools to prevent them from falling.
