

Outbreaks of the western spruce budworm in the American northern Rocky Mountain area from 1922 through 1971

Intermountain Forest & Range Experiment Station, Forest Service, U.S. Dept. of Agriculture
- Outbreaks of the Western Spruce Budworm in the American Northern Rocky Mountain Area from 1922 Through 1971 (Classic Reprint) : Johnson, Philip C: vivchar.tom.ru.au: Books

Description: -

-

Trial practice -- Michigan.

Personal injuries -- Michigan -- Trial practice.

Fire fighters -- Pensions -- Colorado.

Police -- Pensions -- Colorado.

Tropics -- Congresses

Ocean-atmosphere interaction -- Atlantic Ocean -- Congresses

Oceanography -- Atlantic Ocean -- Congresses

Poetry -- Collections

Whalebone

Jainism -- Social aspects.

Art metal-work.

Tamil Nadu (India) -- Religious life and customs.

Fasts and feasts -- Hinduism

Festivals -- India -- Tamil Nadu.

Germany (West) -- Economic policy.

Western spruce budworm -- Rocky Mountains Region. Outbreaks of the western spruce budworm in the American northern Rocky Mountain area from 1922 through 1971

-

3

Peeps into Tamil culture ;

Cambridge surveys in economic policies and institutions

20.

USDA Forest Service general technical report INT ;

USDA Forest Service general technical report INT ; 20 Outbreaks of the western spruce budworm in the American northern Rocky Mountain area from 1922 through 1971

Notes: Bibliography: p. 60-85.

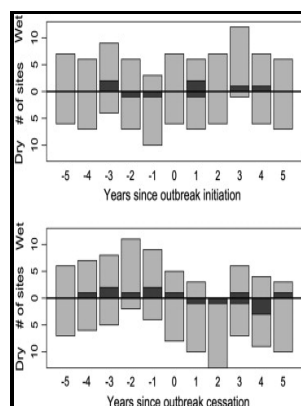

This edition was published in 1975

Feeding activity and fire occurrence were measured in 20 mixed Douglas-fir

Filesize: 23.28 MB

Pseudotsuga menziesii var. . Judicious use of ground-fire, thinning, and other silvicultural treatments that favor seral non-host conifers, reduce stand density, and minimize the number of canopy layers in managed stands would reduce the amount and quality of budworm habitat and significantly reduce the risk of damaging outbreaks.

Forest fire frequency and western spruce budworm outbreaks in western Montana

Meyer 1983 Pilot project of Bt against western spruce budworm in central Montana; USFS, N Region, Report 83-4; no copy S11 Stipe, Lawrence E. Only titles with links are currently available online with more titles always being added. Presence of these isozyme bands is a reliable indication of parasitism by G.

Das Vorkommen dieser Isoenzymbänder ist ein zuverlässiges Zeichen der Parasitierung durch G.

Indigo

Excerpt from Outbreaks of the Western Spruce Budworm in the American Northern Rocky Mountain Area From 1922 Through 1971 Research on the western spruce budworm in recent years has been concerned chiefly with its population dynamics, behavior, genetic characteristics, and chemical control. Male budworm from trees high in foliar concentrations of alpha-pinene, myrcene, terpinolene, citronellyl acetate, and bornyl acetate weighted less than those from trees lacking these characteristics.

Das Vorkommen dieser Isoenzymbänder ist ein zuverlässiges Zeichen der Parasitierung durch G.

Douglas

Additionally, relatively vigorous and productive trees tended to be less susceptible as evidenced by reduced larval weight to budworm of either sex. Such studies must ultimately be made. If prompted, choose Run or Save, then follow the rest of the prompts to complete the update.

Supporting Decisions on Western Spruce Budworm in Forest Management Using Simulation Models

Hymenoptera: Ichneumonidae wurden elektrophoretisch auf Isoenzymbänder untersucht zum Nachweis des Parasitoiden. .
